

Good morning, this is Michael DeRosa, and today I want to challenge you to read the Bible through this year.

2 Timothy 2:15 reads:

“be diligent to present yourself approved to God as a workman who does not need to be ashamed, accurately handling the word of truth.”

In order to ACCURATELY HANDLE the word of truth, we need to be exposed to ALL HIS WORD.

By doing this, we will build safeguards for ourselves as we go through difficulties because we will be able to know better how God HAS COMFORTED AND PROVIDED HEALING for mankind, and be affirmed in our faith the He will do it again

So, if you have been in the habit of falling back on some favorite Scriptures, now is a good time to begin the blessed discipline of expanding your reading program for you will never appreciate the many wonderful life principles in God’s entire word if you continue to shortchange yourself by knowing those tried and true favorites of yours.

Consider what could happen in you and through you as you explore other areas of God’s word this year! today I want to share with you to read the Bible
